

Gerry A. Sherman

Mr. Sherman has a Bachelor of Industrial Technology with a major in Quality Assurance from the University of Idaho. Gerry is an ASQ Certified Quality Engineer, Certified Quality Auditor, Certified Manager of Quality/Organizational Excellence, Certified Quality Technician, and Certified Mechanical Inspector and has held RAB certification as a lead auditor (7669). He has over fifty years of experience in quality assurance as well as military, manufacturing, and service related industries.

Mr. Sherman has been a consultant and trainer in quality management system implementation and personnel certification for more than 30 years, developing quality systems in hundreds of companies and training thousands of persons in the areas of auditing, quality management, quality engineering, inspection, statistics, and quality management systems, including ISO 9000. For more than 30 years Mr. Sherman has conducted audits in hundreds of companies for compliance to ISO 9000, CGMP, nuclear, and military standards

Mr. Sherman was formerly the President of The Registrar Company, Inc. in Dallas, Texas. TRC provided quality management system registration to ISO 9000 and AS 9100 with an emphasis on affordability, reliability, convenience, and genuine customer satisfaction.

He is currently the President of Makor Consulting, LLC, a quality management consulting firm assisting companies in quality management system implementation to ISO 9001:2008 and ISO 27001 and performing contract audits to ISO 9001 in various industries.

Mr. Sherman has held quality engineering positions at Argonne National Lab, EG&G, Johnson & Johnson, and Rockwell International. He has performed quality system certification audits for TRC, NSF, and SRI quality system registrars.
