The right quality software solution can open up countless possibilities to leverage your data, solve complex problems or just help your organization operate more efficiently.

Let the ASQ 2015 Software Showcase and Directory help. In this special section, you’ll find listings of the premier providers in each of these categories. Contact information and areas of specialty are also included.
Get the whole story. Time and again, since 1982, Statgraphics products have provided innovative quality assurance solutions to major corporations around the globe and across the industrial spectrum. The new Version 17 is packed with tools you need to visualize your business in a novel and enlightened new way.

Attain the confidence to act decisively. Discover trends. Gain perspective. Achieve goals. Increase revenue and profitability. Chart your success!

Now there are three choices…

- **Statgraphics Centurion XVII** - over 230 procedures from basic statistics to design of experiments. Powerful new features include the Deviation Dashboard and 18 other Statlets for dynamic data visualization.

- **Statgraphics Sigma express** - adds a Six Sigma DMAIC menu to Microsoft Excel.

- **Statgraphics stratus** - brings statistical analysis and data visualization to the Cloud. Use on your PC, Mac, tablet or smartphone.
Entropy™ Software provides a powerful business improvement solution that significantly reduces the cost and effort to proactively manage risk, quality and sustainability activities.

RC Simplified™ provides a text entry interface that simply asks the questions a facilitator would ask. As answers are provided a Realitychart is created. There is no training needed to use this application.

Using RealityCharting® increases the quality of your analysis by providing expert guidance and structure supporting the Apollo Root Cause Analysis method.

RC Coach™ offers a self-paced online learning experience designed to teach how RealityCharting® can be used to understand and solve your most pressing problems.

RC Pro™ is an advanced enterprise software solution that provides the power of a database and presents information with meaningful analytics and visual reporting. Please call for a quote.
