

ASQE: INSPIRE EXCELLENCE

Your organization understands the importance of an enterprise-wide culture of quality in driving business value and growth. Your organization also understands that it is difficult to make organization-wide quality a reality on your own. An ASQE Organizational Membership provides your organization with the resources and tools to further your pursuit of performance excellence, in a way that fits your business size and enterprise goals.

ORGANIZATIONAL MEMBERSHIP BENEFITS AT A GLANCE

ASQE members can customize tools and resources through packages and add-ons that best suit their needs. Your employees are now able to:

- Engage with ASQ and ASQE at levels that are most relevant.
- Enjoy access to exclusive member events, research, and content to empower teams to further the actionable pursuit of best practices.
- Participate in annual benchmarking, recognition, and research activities.

THE NEW TOOL FOR YOUR QUALITY KIT

While an ASQE membership includes many benefits (see chart on page 2 and visit [our website](#)), the showcase resource for your kit is the new **Insights on Excellence (IoE)** benchmarking tool. The **IoE** benchmarking tool gives your organization data to make better informed business decisions with an actionable report containing a structured pathway for improvement.

Compiled from the Insights on Excellence benchmarking database, the ASQE **annual research report** will identify emerging trends, showcase complementary ASQ member content, and provide actionable guidance to pursue organizational excellence.

We know you will agree that the **Insights on Excellence (IoE)** benchmarking tool is an invaluable asset to your ASQE membership.

ABOUT ASQE

ASQExcellence (ASQE) was founded in January 2020 as a trade association to set the standard for quality-driven offerings and insights worldwide, empowering the organizations it serves to achieve excellence.

ASQ and ASQE are independent associations that share a mission of bringing value and quality solutions to individuals and organizations. ASQ continues to serve its membership of quality professionals through educational advancement. ASQ and ASQE complement and enhance each other by providing member value for both individuals and organizations.
