

Call for Presentations: ASQ SYNERGY FOR SUCCESS 2025

ASQ Divisions/Technical Communities (Quality Management, Software, Energy and Environment, Government, Design and Construction) are excited to announce a call for presentations for our upcoming virtual conference, “ASQ SYNERGY FOR SUCCESS 2025”. This year, our conference brings together thought leaders and practitioners from across multiple sectors. This event is designed to foster interdisciplinary dialogue and promote innovative solutions that span industries. The conference is scheduled virtually on July 22-24, 2025.

The theme for this conference is “Driving Excellence Across Industries”.

Conference Overview

The conference will feature three distinct tracks, each designed to highlight cross-industry challenges and opportunities. We invite professionals, researchers, and practitioners to submit presentations that address current trends, share best practices, and explore emerging technologies across the following tracks:

Cutting EDG^{e*} Practices

- Sustainable Infrastructure
- Public Policy
- Green Design
- Urban Planning
- Disaster Preparedness
- Community Engagement
- Public-Private Partnerships
- Environmental Stewardship
- Cross-Sector Collaboration
- Toxicity and Our Health
- Green Energy for Our Warming Planet
- Energy Priorities Addressing the Needs of Developing Nations
- Creating Efficiency in Multi-organizational Complex Projects
- Best Practices for More Efficient Design & Construction Projects
- Smart Cities Development
- Circular Economy Initiatives

** Energy & Environmental, Design & Construction, Government*

Process Excellence
