30th ASQ Audit Division Conference Business Sponsor Opportunities

Introduction

The ASQ was founded in 1946 and has provided members and their organizations with the resources to achieve performance excellence. Its members have initiated most of the quality methods used throughout the world. The mission of ASQ is to facilitate continuous improvement and increased customer satisfaction by identifying, communicating, and promoting the use of quality principles, concepts, and technologies, and thereby being recognized as a worldwide authority on quality. The ASQ Audit Division, founded as a Technical Committee in 1975, is an extension of this quest to be the premier resource for quality and all things auditing.

The ASQ Audit Division is host to a team of professionals interested in learning more about and advancing auditing as a profession, with a peer network of more than 13,000 individuals from around the world. The ASQ Audit Division provides a venue where all can network with people who do similar work and have a common interest in performance excellence. The primary objective of the ASQ Audit Division is to promote broader application and use of quality auditing principles for effective business management purposes.

Each year we work to improve and provide the best conference available. We look for innovative ways to provide as much information and networking opportunities as we can in a 2-day conference.

This year's conference is being held at the *Peppermill Resort Spa Casino in Reno, NV*. This hotel features numerous first-class amenities, free services, and an unrivalled location for an unforgettable stay. Providing the best hotel service and amenities is an art that Peppermill Reno's hotel has perfected over 50 years. Peppermill's hotel holds the AAA Four Diamond rating for hospitality industry excellence, and is voted one of Reno's best resort hotels year after year by leading hospitality and gaming publications.

Peppermill Reno Hotel Casino presents a fusion of old-world hotel style, service, and aesthetics with contemporary luxury hotel amenities. Each of their hotel rooms and suites feature comfortable accommodations and luxurious bedding with custom-made plush double-pillow-top mattresses and 42" wall-mounted LCD high-def televisions.

Conference Overview

To achieve effective results, auditors are expected to influence managerial decision making with their audit findings. This conference focuses on the auditor's role in identifying quality system issues to improve performance & processes, revenue, and customer satisfaction, including management planning and the decision-making process. It is also the objective of this conference to keep auditors exposed to realizing and managing risk specific to quality, changes to standards, innovations in communications, and ever-changing material, approaches and techniques, in the auditing discipline.
