Lindsborg, KS 67456-2006

Dear Brian E. Bowman:

We are pleased to inform you that you have been recertified as a Quality Engineer. We are enclosing your new certificate, wallet card, a copy of the ASQ Code of Ethics and a recertification journal to document your RU credits.

This certification constitutes professional recognition by your peers in a technical society and is not to be confused with professional registration or licensure by the respective states. Please refer to yourself as an "ASQ Certified Quality Engineer" in discussions and as "ASQ Certified" in any public pronouncements or displays.

Technological change is a continual occurrence which erodes the value of professional certification unless the certification is periodically updated. You may choose to recertify by examination or by accumulating the 18 required recertification units, which should be recorded in your Recertification Journal and submitted to your Recertification Chair or Section Examining Committee (SEC), either during the six months prior or after the "Recertify By" date on your wallet card.

If we may be of further assistance to you, please contact the Recertification Coordinator at 1-414-272-8575 or 1-800-248-1946.

We look forward to your continued participation in the Society.

Sincerely,

Katherine Harris, Chair
ASQ Certification Board
