Dear Ignacio M. Isidor:

CONGRATULATIONS! The Certification Board is pleased to announce that you have passed the written examination for the ASQ Certified Quality Engineer Certificate. You have reached an important milestone in your professional development.

Certification is not a license. It is peer recognition of proficiency in the prescribed body of knowledge. Please refer to your certification in terms which are consistent with the legal requirements found in many states. We recommend that you refer to yourself as an "ASQ Certified Quality Engineer." It is very important that you associate the Society with your certification.

Enclosed are your certificate and wallet card. Please review this information and call ASQ Headquarters if there are any discrepancies. As a certified individual, the ASQ Code of Ethics should serve as your professional guide.

Technological change is a continual occurrence which erodes the value of professional certification unless the certification is periodically updated. You may choose to recertify by examination or by accumulating the 18 required recertification units. The units should be recorded in your Recertification Journal and submitted to your Section Examining Committee, during the six months prior to the expiration date on your wallet card.

You can be rightfully proud of your certification as recognition of your professional knowledge by your peers in a professional society. Your name will be given to the Chair of your ASQ section for recognition through the Section.

We look forward to your continued participation in the Society.

Sincerely,

Katherine Harris, Chair
ASQ Certification Board
